Interactive Module: ASSA ABLOY Premium Bored Locks - Outline

Outline:
- Intro
  - Title and Logo animation (AA)
  - Explain how to use the interactive module (sidebar, navigation)
  - Scenario (same as WB video - school facility manager? Or Someone else?)
    - Maybe just play WB video?
    - Slide to summarize video (also used as a quick reference for return users)
  - Select a brand
    - Select a brand upfront and go down that brand's path?
    - Or...
    - Provide the ability to select a brand at applicable sections/slides?
- Product Overview:
  - Benefits
  - Features
    - Featiure list
    - In addition, provide link to comparison table PDF (for quick reference)
    - Can features be grouped in any way?
  - Exploded View
    - Animation with hotspots (info appears when user hovers over hotspots)
  - Applications
  - Electrified Lock
- Product Details:
  - Certifications
  - Tech Details/Specs
  - Trim
    - Levers
    - In addition, provide link to comparison table PDF (for quick reference)
  - Functions
    - Selector functionality
    - Select a type, visual shows line drawing and details
    - For just a single AA brand, would users prefer to compare one function to another?
      - If so, maybe we can allow users to pick 3 at a time
    - In addition, provide link to comparison table PDF (for quick reference)
    - Can functions be grouped in any way?
  - Cylinders
  - Latches
  - Strikes
  - Options:
    - Cylinder and keying
    - Quick codes
  - Finishes
    - Chip chart
    - In addition, provide link to comparison table PDF (for quick reference)
- FAQ
- MicroShield
  - In catalog, this info is with the TOC - Is this significant info?
- How to Order
- How to Specify
- Take the Function Challenge
  - For added interest/fun, would users like to be challenged to see if they could identify the function just by the line drawing?
